ACKNOWLEDGEMENT

I would like to express my deep and sincere gratitude to my major advisor, Prof. Dr. Aranya Manosroi for providing me the RGJ Ph.D. scholarship from TRF. I also would like to thank her supervision, advices and the patience in correcting this thesis and the manuscripts for publication. She has provided me an unflinching encouragement and support in various ways. Her truly scientist intuition has made her as a constant oasis of ideas and passions in science, which exceptionally inspire and enrich my growth as a student, a researcher and a scientist I want to be. Also, I am gratefully acknowledge to my co-advisor, Prof. Dr. Jiradej Manosroi for his valuable advices, supervision and crucial contribution to this thesis. Also, I would like to thank both of them for the efforts on the collaboration with the foreign professors to be my co-advisor.

I wish to express my sincere thanks to my foreign co-advisor, Prof. Dr. Yoshiaki Kawashima for giving me opportunity to carry parts of my thesis at the School of Pharmaceutical Sciences, Aichi Gakuin University in Japan for 6 months during April to September 2010. I greatly appreciate Asst. Prof. Dr. Kassara Pattamapun, my co-advisor for her suggestions and encouragement during my thesis work at Faculty of Dentistry in Chiang Mai University.

My sincere thanks also to Prof. Sumitra Tongprasert and Dr. Winai Chottianchai for being the examining committees of my thesis defense.

I also wish to express my warm thanks to my colleagues, all staffs and graduate students at Natural Products Research and Development Center (NPRDC),

Faculty of Pharmacy, Science and Technology Research Institute (STRI), Chiang Mai University in Thailand for their technical help and friendship during my study. I would like to thank Prof. Dr. Hiromitsu Yamamoto and Asst. Prof. Dr. Kohei Tahara at School of Pharmaceutical Sciences, Aichi Gakuin University for their help and friendship during my stay in Japan.

I would like to thank the Thailand Research Fund (TRF) for providing me the Royal Golden Jubilee PhD (RGJ-PhD) scholarship program and the Nanoscience and Nanotechnology Research Center Project, Faculty of Sciences, Chiang Mai University, Thailand for partial financial support.

Finally, I would like to thank my family for all of their love and encouragement throughout my study. Thanks to everybody who has contributed to the successful realization of my thesis, as well as expressing my apology that I could not mention personally one by one.

Charinya Chankhampan
