Acknowledgments	i
Abstract	iii
Thai abstract	vi
Table of contents	viii
List of Tables	xi
List of Figures	xiii
List of Appendix Tables and Figures	xv
Chapter 1 INTRODUCTION	1
Chapter 2 LITERATURE REVIEW	4
1. Prawn distribution	4
2. Status of prawn production	5
3. The rice-prawn system of the Mekong Delta	8
3.1. Physiographic description of the Mekong Delta	8
3.2. The rice-prawn production system	11
a. Rice-saline water prawn system	13
b. Rice-brackish water prawn system	15
c. Rice-giant freshwater prawn-fish system	15
3.3. Management of freshwater prawn in rice-based system	17
a. Dike and trench in rice-prawn system	17
b. Stocking	18
c. Feeding	19
d. Growth	20
e. Predation	21
f. Water	21
g. Harvesting	21
4. Prawn culture and water pollution	22

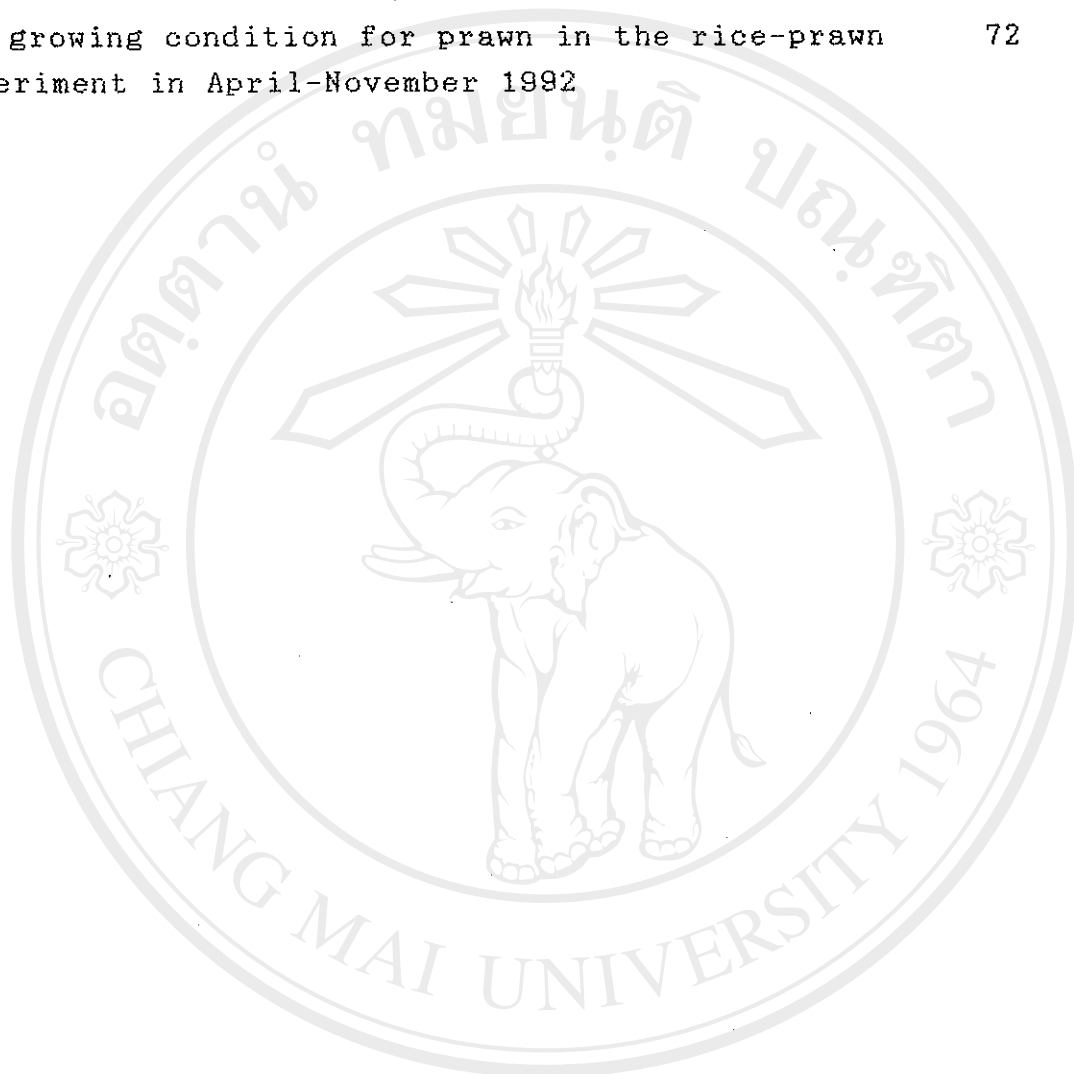

5. Policies relate to Aquaculture	23
6. Prawn markets	24
7. Economic return	26
 Chapter 3 MATERIALS AND METHODS	 28
1. Site selection	28
2. Experiment	28
2.1. The field experiment	28
2.2. Design	30
2.3. Cultural practice	30
3. Data collection	31
3.1. Environmental factors	31
a. Soil	31
b. Dissolved oxygen	32
c. pH of water	32
d. Water temperature	32
e. Water transparency	32
3.2. Prawn growth	33
a. Length and length growth rate	33
b. Weight and weight growth rate	33
c. Survival percentage	33
d. Prawn production	34
3.3. Predators.	34
3.4. Rice production	34
4. Analysis of data	34
Gross margin, net return, rate of return to	35
cash expenditure, rate of return, return to	
labor per season, return to labor per working	
day and cash flow	
 Chapter 4 RESULTS	 37
1. Environment factors	37
1.1. Soil	37
1.2. Dissolved oxygen	37

1.3. pH of water	40
1.4. Water temperature	40
1.5. Water transparency	42
2. Prawns and predators	44
2.1. Length and length growth rate	44
2.2. Weight and weight growth rate	47
2.3. Survival percentage	50
2.4. Number of size prawn	51
2.5. Prawn production	52
2.6. Predators	53
3. Rice production	54
4. Rice-prawn production	54
5. Economic analysis	56
5.1. Rice-prawn system in April-July 1992	56
5.2. Rice-prawn system in August-November 1992	59
5.3. Rice-prawn system in April 1992-January 1993	60
 Chapter 5 DISCUSSION	 66
1. Production and prawn number of various sizes	66
1.1. Length, weight, growth rate and survival of prawn	66
1.2. Prawn production and prawn number of various sizes	68
2. Environment of rice-prawn system	70
3. Production on rice-prawn system and economic return	79
3.1. Production on rice-prawn system	79
3.2. Economic terms to rice-prawn system	79
 Chapter 6 CONCLUSION	 83
REFERENCES	86
APPENDIX	93
CURRICULUM VITAE	111

List of Tables

Table	Page
1. Status of prawn culture in Viet Nam in 1986	6
2. Area and average yield of prawn in rice-fresh water prawn system in the Mekong Delta in 1990	12
3. Length of prawn (cm) over time in April-July 1992	45
4. Length of prawn (cm) over time in Aug.- Nov. 1992	46
5. Weight of prawn (g) over time in April-July 1992	48
6. Weight of prawn (g) over time in Aug.- Nov. 1992	50
7. Prawn production ($\text{kg}\cdot\text{ha}^{-1}$), survival (%), number of prawn ($\text{no}\cdot\text{ha}^{-1}$) and rice production ($\text{kg}\cdot\text{ha}^{-1}$) in April-July 1992	51
8. Prawn production ($\text{Kg}\cdot\text{ha}^{-1}$), survival (%), number of prawn ($\text{no}\cdot\text{ha}^{-1}$) and rice production ($\text{kg}\cdot\text{ha}^{-1}$) in August 1992 - January 1993	51
9. Summary of the economic analysis of rice-prawn system in April-July 1992 ($\text{US}\ \$\cdot\text{ha}^{-1}$)	57
10. Summary of the economic analysis of rice-prawn system in August 1992 - January 1993 ($\text{US}\ \$\cdot\text{ha}^{-1}$)	60
11. Summary of the economic analysis of rice-prawn system in April 1992 - January 1993 ($\text{US}\ \$\cdot\text{ha}^{-1}$)	62

12. Cash balance of rice monoculture and rice-prawn culture in April 1992 - January 1993 (US \$.ha⁻¹) 64
13. The growing condition for prawn in the rice-prawn experiment in April-November 1992 72

List of Figures

Figure	Page
1. Map of the Mekong Delta of Viet Nam	10
2. Dissolved oxygen (mg.l^{-1}) in canal & rice field at 6 a.m. in April-July 1992	38
3. Dissolved oxygen (mg.l^{-1}) in canal & rice field at 6 a.m. in August-November 1992	40
4. Water temperature ($^{\circ}\text{C}$) in canal at 2 p.m in April-July 1992	41
5. Water temperature ($^{\circ}\text{C}$) in canal at 2 p.m in August-November 1992	42
6. Water transparency (cm) over time in canal in April-July 1992	43
7. Water transparency (cm) over time in canal in August-November 1992	44
8. Average length (cm) of prawn over time in April-July 1992	46
9. Average prawn length (cm) of T1, T2, T3 over time in August-November 1992	47
10. Average weight (g) of prawn over time in April-July 1992	49

- | | |
|---|----|
| 11. Prawn weight (g) of T1, T2, and T3 time in August -November 1982 | 49 |
| 12. Rice (t.ha ⁻¹) and prawn production (kg.ha ⁻¹) in April 1982 - January 1993 | 55 |
| 13. Factors affecting prawn yield in rice-prawn system during April - November 1982 | 75 |

List of Appendix Tables and Figures

Appendix Table	Page
1. Average air temperature ($^{\circ}\text{C}$) & rainfall (mm) in Hau Giang during 1988-1992 and 1992	94
2. Analysis of soil on which the experiment was carried out in Phung Hiep District, Hau Giang Province during 1992-1993	95
3. Dissolved oxygen (mg.l^{-1}) over time in canal at 6 a.m. in April-July 1992	96
4. Dissolved oxygen (mg.l^{-1}) over time in canal at 6 a.m. in August-November 1992	96
5. Dissolved oxygen (mg.l^{-1}) over time in rice field at 6 a.m. in April-July 1992	97
6. Dissolved oxygen (mg.l^{-1}) over time in rice field at 6 a.m. in August-November 1992	97
7. Water temperature ($^{\circ}\text{C}$) over time in the surface canal at 2 p.m. in April-August 1992	98
8. Water temperature ($^{\circ}\text{C}$) over time in the surface canal at 2 p.m. in August-November 1992	98
9. Water temperature ($^{\circ}\text{C}$) over time in the bottom canal at 2 p.m. in April-August 1992	99

10.	Water temperature ($^{\circ}\text{C}$) over time in the bottom canal at 2 p.m. in August–November 1992	99
11.	Water transparency (cm) over time in the canal in April–July 1992	100
12.	Water transparency (cm) over time in the canal in August–November 1992	100
13.	ANOVA of prawn length (cm) over time in August – November 1992	101
14.	ANOVA of prawn weight (g) over time in August – November 1992	101 102
15.	ANOVA of prawn production ($\text{kg}\cdot\text{ha}^{-1}$), survival (%), and number of prawn in August–November 1992	102
16.	Economic analysis of prawn culture in April–July 1992 (thousand VN dong. $\cdot\text{ha}^{-1}$)	103
17.	Economic analysis of prawn culture in August – November 1992 (thousand VN dong. $\cdot\text{ha}^{-1}$)	104
18.	Economic analysis of rice early wet season in April–July 1992 (thousand VN dong. $\cdot\text{ha}^{-1}$)	105
19.	Economic analysis of local rice crop in August 1992 – January 1993 (thousand VN dong. $\cdot\text{ha}^{-1}$)	106
20.	Cash flow analysis on prawn of treatment T1 in April–November 1992 (thousand VN dong. $\cdot\text{ha}^{-1}$)	107
21.	Cash flow analysis on prawn of treatment T2 in	107

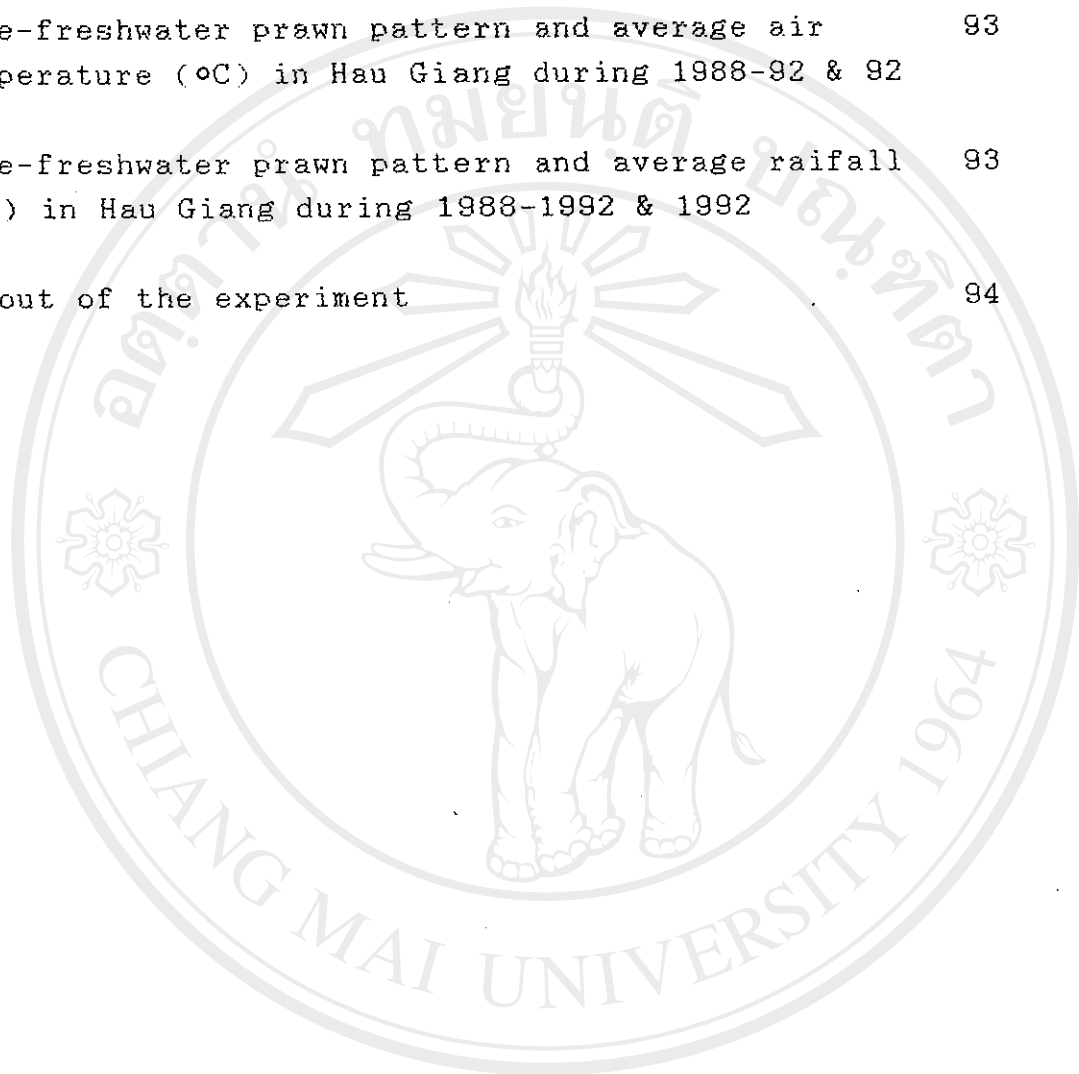

April-November 1992 (thousand VN dong.ha⁻¹)

22. Cash flow analysis on prawn of treatment T3 in April-November 1992 (thousand VN dong.ha⁻¹) 108
23. Cash flow analysis on rice of treatment To in April 1992-January 1993 (thousand VN dong.ha⁻¹) 108
24. Cash flow analysis on rice of treatment T1 in April 1992-January 1993 (thousand VN dong.ha⁻¹) 108
25. Cash flow analysis on rice of treatment T2 in April 1992-January 1993 (thousand VN dong.ha⁻¹) 109
26. Cash flow analysis on rice of treatment T3 in April 1992-January 1993 (thousand VN dong.ha⁻¹) 109
27. Cash flow analysis on rice monoculture of To in April 1992-January 1993 (thousand VN dong.ha⁻¹) 109
28. Cash flow analysis on rice-prawn culture of T1 in April 1992-January 1993 (thousand VN dong.ha⁻¹) 110
29. Cash flow analysis on rice-prawn culture of T2 in April 1992-January 1993 (thousand VN dong.ha⁻¹) 110
30. Cash flow analysis on rice-prawn culture of T3 in April 1992-January 1993 (thousand VN dong.ha⁻¹) 110

Appendix Figure

1. Rice-freshwater prawn pattern and average air temperature ($^{\circ}\text{C}$) in Hau Giang during 1988-92 & 92 93
2. Rice-freshwater prawn pattern and average rainfall (mm) in Hau Giang during 1988-1992 & 1992 93
3. Layout of the experiment 94
