ACKNOWLEDGEMENTS	iii
ABSTRACT	iv
THAI ABSTRACT	vi
LIST OF TABLES	xi
LIST OF ILLUSTRATIONS	xii
LIST OF APPENDICES	xiv
CHAPTER 1 INTRODUCTION	1
CHAPTER 2 LITERATURE REVIEW	
2.1 Greenhouse Gases	3
2.2 Greenhouse Effect	5
2.3 Impacts of Greenhouse Effect	8
2.4 Estimating GHGs Emission	8
2.4.1 At the Global Level	8
2.4.2 Thailand Case	8
2.5 Significant of Methane Gas	9
2.5.1 Methane Emission and Factors Affecting	10
Methane emission	10
Ebullition (bubbles)	12
Vascular transport	12
Diffusion	12
Factors Affecting on Methane Production	12
Carbon sources	13
Soil Oxidation-Reduction Potential (Eh)	13
Soil pH	14
Soil Temperature	14
2.5.2 Methane Production	15
2.5.3 Methane Consumption	17

2.6 Impact of CH <sub>4</sub> on Agricultural Systems	18
2.7 Modeling of Methane Production and Consumption	19
<b>CHAPTER 3 METHODOLOGY</b>	
3.1 Site Selection	20
3.2 Land Use Types in Mae Chaem Watershed	22
3.2.1 Paddy Fields(RF1 and RF2)	22
3.2.2 Deciduous Forest (DF1 and DF2)	24
3.2.3 Hill Evergreen Forest (EF)	24
3.2.4 Fallow Field Cultivation (F1, F4 and F7)	25
3.2.5 Field Crop Area (FC)	25
3.2.6 Orchard Field (OF)	25
3.2.7 Pine Forest (PF)	26
3.3 Research Materials	26
3.3.1 Field Materials	26
Gas Sampling Boxes (Chambers)	26
Syringes and Needles	28
Gas Sample Containers	29
Other Accessories	29
3.3.2 Laboratory Materials	30
Gas Chromatography and Accessories	30
Gas Used in the GC system	33
3.4 Methods	34
3.4.1 Methane Emission Measurement	34
Gas Sampling	34
Methane Gas Concentration Analysis (at PRRC)	34
Injection Techniques	34
Parameters Setting	35
3.4.2 Methane Emission Calculation	35
Slope Calculation	37
Methane Emission Rate Calculation	40
3.4.3 Modeling of Methane Production and Consumption	41
3.4.3 Auxiliary Data Collection	43
<b>CHAPTER 4 RESULTS AND DISCUSSION</b>	
4.1 Methane Partial Source and sink	46
4.1.1 Wat Chan Paddy Field (RF1)	47
4.1.2 Charng Kerng Paddy Field (RF2)	47

4.2 Methane Sinks	48
4.2.1 Deciduous Forest (DF2 and DF2)	48
4.2.2 Hill Evergreen Forest (EF)	50
4.2.3 Fallow Field Cultivation (F1, F4 and F7)	51
4.2.4 Field Crop Area (FC)	52
4.2.5 Orchard Field (OF)	53
4.2.6 Pine Forest (PF)	54
Discussion	
4.3 Net Methane Emission in Mae Chaem Watershed	58
Discussion	
4.4 Modeling of Methane Production and Consumption	61
4.4.1 Methane Production Sector Model	61
Rice Growth	63
Methane Production	64
Methane Oxidation at Rice Rhizosphere	65
4.4.2 Methane Consumption Sector Model	66
4.4.3 Simulation Results	68
Simulation Results of Methane Partial Source and Sink	68
Simulation Results of Methane Sink	70
Methane consumption in Deciduous Forest (DF1)	70
Methane consumption in One-year Fallow (F1)	72
Methane consumption in Four-year Fallow (F4)	73
Methane consumption in Seven-year Fallow (F7)	74
Methane consumption in Orchard Field (OF)	75
Methane consumption in Pine Forest (PF)	76
Discussion	
CHAPTER 5 CONCLUSION	78
REFERENCES	81
APPENDICES	87
CURRICULUM VITAE	109

## LIST OF TABLES

Table	Page
3.1 Identification of a report from recorder	36
3.2 Average and Standard Deviation (SD) of methane concentration from three replications	36
3.3 Slope calculation of methane concentrations and sampling time steps	38
4.1 Date of sample collection from eleven land use types in MCW, 1999	45
4.2 The area and methane production and consumption rate of seven land use types	58
4.3 Calculation of the net methane emission from seven land use types	59

## LIST OF ILLUSTRATIONS

Figure	Page
2.1 Schematic representation of increasing and out going radiation	7
2.2 Schematic of methane emission from paddy field	11
2.3 Some pathways of methane production and methane consumption	16
3.1 Location of Mae Chaem watershed	21
3.2 Location of eleven selected land uses in Mae Chaem watershed	23
3.3 The chamber used to collect gas samples in non-flooded soils condition	27
3.4 The chamber used to collect gas samples in flooded soils condition	28
3.5 Gas sampling materials	29
3.6 Accessories for collecting auxiliary data	30
3.7 Gas Chromatography (model GC-8A, Shimadzu CO., Inc. Japan)	31
3.8 Injection port and FID of GC-8A	32
3.9 Classification of methane production (source) and consumption (sink)	39
3.10 Model of methane production in paddy soils	41
3.11 Model of methane consumption in non-flooded soils	42
4.1 Seasonal variation of methane production and consumption in rice fields	46
4.2 Methane consumption rates in deciduous forest	49
4.3 Methane consumption rates in hill evergreen forest (EF)	50
4.4 Methane consumption rates in fallow field cultivation	51
4.5 Methane consumption rates in field crop area (FC)	52
4.6 Methane consumption rates in orchard field (OF)	53
4.7 Methane consumption rates in pine forest (PF)	54
4.8 Average of methane consumption rate in eleven land uses	55
4.9 Correlation between soil bulk densities and methane consumption rates	55
4.10 Conceptual model of the methane production processes	62
4.11 Conceptual model of the methane consumption processes	67
4.12 Simulated and observed methane production and consumption in rice field	69
4.13 Comparison of observed and simulated methane consumption in rice field	69
4.14 Comparison of observed and simulated methane production in rice field	70
4.15 Simulated and observed methane consumption deciduous forest (DF1)	71
4.16 Comparison of observed and simulated methane consumption in deciduous forest (DF1)	71
4.17 Simulated and observed methane consumption in one-year fallow (F1)	72
4.18 Comparison of observed and simulated methane consumption in one-year fallow (F1)	72
4.19 Simulated and observed methane consumption in four-year fallow (F4)	73
4.20 Comparison of observed and simulated methane consumption in four-year fallow (F4)	73
4.21 Simulated and observed methane consumption in seven-year fallow (F7)	74
4.22 Comparison of observed and simulated methane consumption in seven-year fallow (F7)	74
4.23 Simulated and observed methane consumption in orchard field (OF)	75

4.24 Comparison of observed and simulated methane consumption in orchard field (OF)	75
4.25 Simulated and observed methane consumption in pine forest (PF)	76
4.26 Comparison of observed and simulated methane consumption in pine forest (PF)	76

## LIST OF APPENDICES

	Page
APPENDIX A	
Equations Used in the (SoSiMet) Methane Model	88
Methane Consumption Sector	88
Methane Production Sector	92
APPENDIX B	
Auxiliary Data	100
Weather data	100
Soil data	102
