ACKNOWLEDGEMENTS

I gratefully acknowledge the McKnight Foundation for awarding me with a master degree. I also thank Thailand Research Fund for laboratory facility and some field work experiment for the financial support in some parts of my research.

I deeply thank my advisors, Professor Dr. Benjavan Rerkasem, Associate and Associate Professor Dr. Sansanee Jamjod for providing me with continuous support during the long process of this research.

I wish to acknowledge my special thanks to my Excellency, Phoumi Inthapanya, Director of the Rice and Commercial Crop Research Center, Kongphan Kanyavong and Dr. Chay Bounphanousay, Deputy of the Rice and Commercial Crop Research Center, who gave a good opportunity for this study.

I am thankful to Assoc. Prof. Dr. Dumnern Karlanee of the post graduate committee of Department of Agronomy, Faculty of Agriculture, Chiang Mai University and his staff for facilitating his study; to Miss Panomwan Boonchuay, Mr. Ayut Kongpang the former PhD. Student and Dr. Jumnian Wongmo are acknowledged for their advice in my study and friendship.

Thanks to all the staff of the CMUPNlab, Agronomy and Multiple Cropping Center, Faculty of Agriculture, Chiang Mai University; students at the CMUPNlab, Agronomy Department, Faculty of Agriculture, Chiang Mai University and staffs who are friends and colleagues, for their help.

Finally, I would like to thank my family, my mother, my wife, my daughter, my younger sister and younger brother who patiently waited and prayed for my

success and for their understanding, sacrifice and continuous good support during my long absence.
