ACKNOWLEDGEMENTS

I would like to thank my major advisor, Associate Professor Dr. Danai Boonyakiat, for his helpful advice, encouragement and always follow up this project process. He also inspired my thinking in management, knowledge synthesizing and thesis development. Additionally, I would like to thank my co-advisor, Professor Dr. Nithiya Rattanapanone and Assistant Professor Dr. Kobkiat Saengnil who gave valuable comments, suggestions and helpful criticisms in the preparation and completion of the thesis. Also I would like to give a sincere thank to Assistant Professor Dr. Sujitra Ratanamarno and Assistant Professor Dr. Noppol Leksawasdi for being my examining committee, and providing valuable comments with useful criticisms as well.

This research was supported by grant under the program Strategic Scholarships for Frontier Research Network for the Ph.D. Program Thai Doctoral degree from the Office of the Higher Education Commission, Thailand. I also thank the Thailand Research Fund and Faculty of Agriculture, Chiang Mai University, for their supports. I especially thank Dr. Robert D. Hagenmaier for advice on the coating preparation.

I would like to say thank you to the Postharvest Laboratory of Horticulture, Department of Plant Science and Natural Resources, Faculty of Agriculture, Chiang Mai University for permission of access to the instruments and supplying research chemicals and technical assistance. Also thank to Suan Som Sai Thong Changwat Chiang Mai Company Limited for supplying in 'Sai Nam Phueng' tangerine fruit, and Nature Bright Company Limited for supporting in Zivdar coating. Also I would like to thank Ms. Sirisopha Inkha, Mr. Phonkrit Maniwara and Ms. Phuangphet Hemrattrakun for their supports, complementation and finding solution for thesis difficulties. I am so grateful and appreciate their helps.

Lastly, the greatest thank to my parents for their love and support. They have been beside me in every endeavor that I have undertaken.

Pimjai Sehanam
