ACKNOWLEDGEMENTS	iii
ABSTRACT (THAI)	iv
ABSTRACT (ENGLISH)	v
TABLE OF CONTENTS	vi
LIST OF TABLES	x
LIST OF FIGURES	xi
CHAPTER 1 INTRODUCTION	
1.1 Background	1
1.2 Historical background of the knowledge of dragonflies of Thailand	1
1.3 Objectives	2
CHAPTER 2 LITERATURE REVIEW	
2.1 Life cycle and general biology	3
2.2 Ecology	5
2.3 Morphology	5
2.4 Odonata in Thailand and in Doi Suthep-Pui National Park	8
2.4.1 Family Calopterygidae	8
2.4.2 Family Chlorocyphidae	8
2.4.3 Family Chlorolestidae	8
2.4.4 Family Coenagrionidae	9
2.4.5 Family Euphaeidae	9
2.4.6 Family Lestidae	10

TABLE OF CONTENTS (CONTINUED)

	Page
2.4.7 Family Megapodagrionidae	10
2.4.8 Family Philogangidae	10
2.4.9 Family Platycnemididae	10
2.4.10 Family Platystictidae	10
2.4.11 Family Protoneuridae	10
2.4.12 Family Aeshnidae	12
2.4.13 Family Chlorogomphidae	12
2.4.14 Family Corduliidae	12
2.4.15 Family Gomphidae	13
2.4.16 Family Libellulidae	13
 CHAPTER 3 MATERIALS AND METHODS	
3.1 Field study	14
3.2 Data analyses	14
3.3 Classification and identification	15
3.4 Making pictorial keys	15
 CHAPTER 4 RESULTS	
4.1 Diversity of Odonata in Doi Suthep-Pui National Park	20
4.2 Checklist and phenology of Odonata recorded in this study	23
4.3 Key to suborder of Odonata in this study	26

TABLE OF CONTENTS (CONTINUED)

	Page
4.4 Key to zygopteran families recorded in this study	26
4.5 Key to genera and species of Zygoptera recorded in this study	30
4.5.1 Key to genera of family Chlorocyphidae recorded in this study	30
4.5.2 Key to species of genus <i>Heliocypha</i> recorded in this study	30
4.5.3 Key to genera of family Euphaeidae recorded in this study	31
4.5.4 Key to species genus <i>Euphaea</i> recorded in this study	31
4.5.5 Key to genera of family Calopterygidae recorded in this study	32
4.5.6 Key to genera of family Platystictidae recorded in this study	34
4.5.7 Key to species of genus <i>Protosticta</i> recorded in this study	34
4.5.8 Key to species of genus <i>Prodasineura</i> recorded in this study	36
4.5.9 Key to genera of family Coenagrionidae recorded in this study	37
4.5.10 Key to species of genus <i>Ceriagrion</i> recorded in this study	37
4.5.11 Key to species of genus <i>Pseudagrion</i> recorded in this study	37
4.5.12 Key to genera of family Platynemididae recorded in this study	41
4.5.13 Key to species of genus <i>Coeliccia</i> recorded in this study	41
4.5.14 Key to species of genus <i>Calicnemia</i> recorded in this study	41
4.5.15 Key to species of genus <i>Copera</i> recorded in this study	41
4.6 Key to anisopteran families recorded in this study	45
4.7 Key to genera and species of Anisoptera recorded in this study	47
4.7.1 Key to genera of family Gomphidae recorded in this study	47
4.7.2 Key to genera of family Aeshnidae recorded in this study	50

TABLE OF CONTENTS (CONTINUED)

	Page
4.7.3 Key to species of genus <i>Anax</i> recorded in this study	50
4.7.4 Key to genera of family Corduliidae recorded in this study	51
4.7.5 Key to species of genus <i>Idionyx</i> recorded in this study	51
4.7.6 Key to genera of family Libellulidae recorded in this study	53
4.7.7 Key to species of genus <i>Orthetrum</i> recorded in this study	54
4.7.8 Key to species of genus <i>Rhyothemis</i> recorded in this study	54
4.7.9 Key to species of genus <i>Trithemis</i> recorded in this study	55
4.7.10 Key to species of genus <i>Neurothemis</i> recorded in this study	55
 CHAPTER 5 DISCUSSION AND CONCLUSION	
5.1 Diversity and taxonomy of Odonata in Doi Suthep-Pui National Park	64
5.2 Checklist of Odonata in Doi Suthep-Pui National Park	65
5.3 Future research on Odonata in Thailand	68
 REFERENCES	 70
 CURRICULUM VITAE	 74

LIST OF TABLES

Table	Page
1 Description of study sites in the Doi Suthep-Pui National Park, Chiang Mai Province	16
2 Number of species and new records found in this study	20
3 Altitude and number of odonate species recorded in each study site	21
4 Total individuals recorded, evenness (E), diversity (H'), and richness (R) in each study site	22
5 Total number of individuals in each family recorded in this study	22

LIST OF FIGURES

Figure	Page
1 Life cycle of a dragonfly	4
2 General structure of Anisoptera and Zygoptera : A. male Anisoptera, <i>Trithemis aurora</i> ; B. male Zygoptera, <i>Pseudagrion rubriceps rubriceps</i>	6
3 Venation of fore- and hindwing: A. male Anisoptera, <i>Orthemtrum triangulare triangulare</i> B. male Zygoptera, <i>Coeliccia loogali</i>	7
4 Family representatives of Zygoptera: 1, Calopterygidae; 2, Chlorocyphidae; 3, Chlorolestidae; 4, Coenagrionidae	9
5 Family representatives of Zygoptera: 1, Euphaeidae; 2, Lestidae; 3, Megapodagrionidae; 4, Philogangidae; 5, Platycnemididae; 6, Platystictidae; 7-8, Protoneuridae	11
6 Family representatives of Anisoptera: 1, Aeshnidae; 2, Corduliidae; 3, Gomphidae; 4, Libellulidae	12
7 Map of Suthep-Pui National Park, Chiang Mai, showing location of study sites	19
8 Relationship between altitude of each study and number of species	21
9 Key to suborder of Odonata recoded in this study	26
10 Key to zygopteran families recorded in this study	28-29
11 Key to genera of family Chlorocyphidae recorded in this study	30
12 Key to species of genus <i>Heliocypha</i> recorded in this study	30
13 Key to genera of family Euphaeidae recorded in this study	31
14 Key to species of genus <i>Euphaea</i> recorded in this study	31
15 Key to genera and species of family Calopterygidae recorded in this study	33-34
16 Key to genera of family Platystictidae recorded in this study	35

LIST OF FIGURES (CONTINUED)

Figure	Page
17 Key to species of genus <i>Protosticta</i> recorded in this study	35
18 Key to species of genus <i>Prodasineura</i> recorded in this study	36
19 Key to genera of family Coenagrion recorded in this study	38-39
20 Key to species of genus <i>Ceriagrion</i> recorded in this study	40
21 Key to species of genus <i>Pseudagrion</i> recorded in this study	40
22 Key to genera of family Platycnemididae recorded in this study.	42
23 Key to species of genus <i>Calicnemia</i> recorded in this study	42
24 Key to species of genus <i>Coeliccia</i> recorded in this study	43
25 Key to species of genus <i>Copera</i> recorded in this study	44
26 Key to anisopteran families recorded in this study	46
27 Key to genera of family Gomphidae recorded in this study	48-49
28 Key to genera of family Aeshnidae recorded in this study	50
29 Key to species of genus <i>Anax</i> recorded in this study	51
30 Key to genera of family Corduliidae recorded in this study	52
31 Key to species of genus <i>Idionyx</i> recorded in this study	52
32 Key to genera of family Libellulidae recorded in this study	56-60
33 Key to species of genus <i>Orthetrum</i> recorded in this study	60-61
34 Key to species of genus <i>Rhyothemis</i> recorded in this study	61-62
35 Key to species of genus <i>Trithemis</i> recorded in this study	62
36 Key to species of genus <i>Neurothemis</i> recorded in this study	63
