ACKNOWLEDGEMENTS

I would like to express my gratitude and appreciation to the following for assisting me during various stages of my study:

Associate Professor Suthat Julsrigival, advisor and chairman of my Advisory Committee; Associate Professor Dr. Dumnern Karladee and Professor Dr. Chuckree Senthong, members of my Advisory Committee, for their valuable guidance and helpful criticism in preparation and completion of this study. Special thanks to Associate Professor Dr. Sansanee Jamjod and Assistant Professor Dr. Surat Nuglor for their comments to improve the accuracy of this dissertation;

The Royal Project Foundation, for granting me a study leave and to whom the author owes a big debt of gratitude for financial support which enabled me to finish my M.S. and Ph.D. studies.

Finally, I am grateful to my family, my parents, my elder sisters for their patience and encouragement during many years of this Ph.D. study.
