Acknowledgements

I wish to express my sincere appreciation to Assoc. Prof. Dr. Adisorn Krasaechai, Lect. Dr. Chantana Suwanthada, Asst. Prof. Dr. Srisulak Dheeranupattana and Assoc. Prof. Kesinee Ramingwong for their valuable encouragement, patience in reading the manuscript and correcting my English, and their constructive criticisms in preparing this thesis, Lect. Dr. Tanachai Pankasemsuk Examining committee member and Asst. Prof. Dr. Yongyoot Waikakul for their comments to improve the accuracy of this thesis.

Grateful acknowledgement is made to Lect. Dr. Phanna Waikakul for her advice, looking after, helpful guidance, support, care, love and generosity, without her help I may not have a success now.

The staff of the Royal Project Foundation for their help to survey and plant collection at the forest of Khun Wang Development Center, Royal Project Foundation, Chiang Mia University for opportunity to undertake this study.

Appreciation is also expressed to: Lect. Jarmjuree Sotetikul for her helpful advice and the use of facilities the tissue culture experiment, Lect. J. F. Maxwell for his helpful guidance in plant identification and classification, Mr. Somkid Vongye and staff of Horticultural laboratory, Faculty of Agricultural, Chiang Mai University for their advice in laboratory technique. I would like to thank Asst. Prof. Dr. Perayos Khangkhun and staff at Department of Agricultural Technology, Mahasarakham University for their help and advice in writing my thesis. Mr. Ronnarong Yookaid, Ms. Rattikan Phoungtong, Ms. Amonrat Thongsan and Ms. Ngamjit Duangdee for their kindness, encouragement and friendship during my five years in Chiang Mai.

Finally, my grateful thanks to my parent, brothers, sisters and relatives for their moral support, valuable encouragement, understanding and patience.

Mahasarakham University for the opportunity to undertake this study is gratefully acknowledged.

Waranyoo Kaewduangta
