Acknowledgement

This thesis work would not have been completed without the help of several people whom I wish to thank. First of all my warmest thanks go to Assoc. Prof. Dr. Nuttha Potapohn, Dr. Siripong Kumpai, Assoc. Prof. Dr. Chatree Sittigul, Asst. Prof. Dr. Angsana Akarapisan, and Lecturer Dr. Weenun Bundithya, for their valuable suggestion and encouragement to conduct this research.

I would like to thank the Royal Project Foundation and the financial support given me which made possible the opportunity for Ph.D. program.

In addition, I would like to thank scholarship from Center of Excellence on Agricultural Biotechnology.

Special word for thank also goes to H.S.H. Prince Bhisatej Rajani, Chairman of the Royal Project Foundation. I also expressed my full thanks to Miss. Sililuk Inthawong and Miss Ansaya Suriyawongtrakarn and all vegetable extension staffs.

I am thankful to Mr. Likhit Maneesin for sharing his time, knowledge and technical expertise.

Finally, I would like to thank Mr. Wittaya and Anaphat Chompupoung to whom I dedicate this.

Anchan Chompupoung
