ACKNOWLEDGEMENTS

I would like to thank the Thailand Research Fund for awarding me with a Royal Golden Jubilee Ph.D. scholarship.

I would like to thank my supervisor Professor Dr. Chuckree Senthong for accepting me as one of his graduate students. His guidance and encouragement were integral in my development as research scientist.

I am especially appreciative to the other members of my committee. Special thanks to Prof. Dr. Monique Y. Leclerc for providing me with a research topic, all her helpful advice, and for giving me the opportunity to experience work and life in the USA. Assoc.Prof. Suthat Julsrigival, Assoc.Prof. Dr. Sakda Jongkaewwattana, Assoc.Prof. Dr. Soonthorn Khamyong, and Asst.Prof. Dr. Sawit Meechoui for their advice and comments to improved the accuracy of this dissertation..

A special thanks to Assist. Prof. Dr. John P. Beasley Jr. and Dr. Diane Rowland for sharing their advice and knowledge in crop physiology. I want to especially thank Prof. Dr. Nelson Dias, Dr. Gengsheng Zhang and Dr. Jinkyu Hong for sharing their expertise in physics, forest/agro-ecology, and micrometeorology during this research. I am grateful to Mr. Stan R. Jones for their support in conducting this research on their land. I am grateful to Mrs. Vijaya Mantri for being the surrogate family during two years that I stayed in USA.

This research would not have been possible without the Department of Crop and Soil Sciences at the University of Georgia, Griffin campus and the University of

Georgia's Southwest Georgia Research and Education Center in Plains, GA. Excellent staffs were provided along with very conducive locations for conducting this research.

Finally and most important I would like to thank my parents and my younger brother for their love support all my life. I am thankful to my friends; Ms. Jarunee Pilumwong, Ms. Janjira Puntase, Ms. Sarita Yoopum, Ms. Natchaya Pingintha, Mr. Prachan Chanpengphat, Mr. Suksan Srinoune, Ms. Supatcharin Thasook, Mr. David J. Durden, Mr. Xiaofeng Guo and Mr. Henrique F. Duarte for making sure that there was always decent proportion of talking, fun, movies, cups of coffee and other matters of essence in my life.

Chompunut Chayawat
