## ACKNOWLEDGEMENTS

I wish to express my sincere gratitudes to my advisor, Lecturer Dr. Chuntana Suwanthada for her valuable guidance, encouragement and support, from the beginning had enabled me to develop understanding and skill in the subject of my study. I appreciate her care, love, generosity and her patience in critical reviewing of the manuscript and correcting my English. I am also grateful to Associate Professor Nipon Jayamangkala, Associate Professor Dr. Chusie Trisonthi, Assistance Professor Dr. Prasit Noree and Lecturer Dr. Siwaporn Thumdee for their useful suggestions, kindness and comments to fulfill this dissertation.

I would like to thank the Office of the Higher Education Commission, Thailand for granting the supports under the program of Strategic Scholarships for Frontier Research Network for the Ph.D. Program, Thai Doctoral Degree. My thanks are due to Huai Hong Khrai Royal Development Study Centre, Faculty of Agriculture, Chiang Mai University and Uttaradit Rajabhat University for their supports. I also thank the owners of the plant specimens for their donations.

Thanks are also extended to many people who assisted me during the study, in particular :

- All staffs of the intensive agriculture section, Huai Hong Khrai Royal Development Study Centre for their helps.

- Mrs. Pornrat Sirikhum, Ms. Piyanuch Yodphet and Mr. Suriya Tateing, the technicians of the Physiology Laboratory of Department of Plant Science and Natural Resources, Faculty of Agriculture, Chiang Mai University for their helps during my experiments in this study.

- Ms. Prapassorn Arayakitcharoenchai, Ms. Amonrat Thongsan and Ms. Hatairat Thainuruk for their discussions, encouragements, hospitalities and kind helps.

Finally, all members in my family, especially my father, mother, sister and brother-in-law are sincerely thanked for their supports and encouragement. Special appreciation must be extended to my wife for her consideration, patience, strong support and constant encouragement throughout my study.

Phichai Chaikla
