## **APPENDIX B**

### **Interview Questions for Farmers Participating in Research Project with Hohenheim University/ Chiang Mai University**

Farmer interviewed: \_\_\_\_\_

Date: \_\_\_\_\_

Village: \_\_\_\_\_

Ward: \_\_\_\_\_

1. What is your name?
2. Age?
3. Are you the primary farmer in your household?
4. How many people are in your household?
5. How many fields do you have?
6. What are the sizes?
7. What crops do you grow?
8. What system for growing maize do you use?
9. Do you practice CF planting stations?
  - a. If so, how many years have you practiced the basin technology?
    - i. How did you learn about CF?
  - b. What was the history of the field before using CF?
    - i. Ploughed
    - ii. Bush
10. Do you practice ploughing?
11. How many years have you practiced your current method of farming?
12. Can you describe your cropping history?

- a. Maize every year in the same field?
- b. Do you rotate maize with other crops?

13. Can you describe your yield history?

- a. Last season
- b. Two years ago
- c. Three years ago
- d. Four years ago
- e. Five years ago

14. Do you have a record of your yield?

15. How do you record yield?

- a. By wheelbarrow
- b. By sacks of shelled maize
- c. Other method

16. Please describe the following planting season activities for last season?

- a. Field preparation
  - i. Dates for ploughing
    - 1. How long does it take to plough your field?
    - 2. Is it your own plough and animals?
    - 3. Do you pay for ploughing services?
  - ii. Burning?
  - iii. Holing out?
    - 1. How long did it take to make all holes start to finish?
    - 2. Hours per day
    - 3. Days to completion

4. Field size
  5. How many people worked on the field?
- b. Amendment used
    - i. Type
    - ii. Rate
  - c. Seeding date
  - d. Crop and cultivar
  - e. How many times did you weed after planting?
  - f. Did you side dress?
    - i. Type
    - ii. Rate
  - g. Harvest information
    - i. Timing
    - ii. Yield
    - iii. Trend
      1. Better than previous year
      2. Worse than previous year
      3. Same as previous year
  - h. Overall how would you describe the overall trend
    - i. Yields change year to year
    - ii. Yields steadily improving
    - iii. Yields stay the same
    - iv. Yields decreasing
    - v. Yields increased for several seasons and then stayed the same

- i. What do you think impacts yields the most
  - i. Having enough rainfall
  - ii. Having enough fertilizer
  - iii. Having the right kind of seed
  - iv. Planting early
  - v. The presence of mulch
- j. What happens to the maize stalks after you harvest?
  - i. Do animals graze
    1. If so, are they your animals
    2. Do you want the animals to graze

17. What observations do you have from the growing season and over time

regarding the following factors?

- a. Flooding
- b. Drought stress symptoms observed
- c. Compaction
- d. Run-off
- e. Do you think soil quality is improving or declining over time? Why?

18. Why do you practice your current method of farming?

19. Please compare ploughing and CF.

- a. If practicing CF, how does it compare with ploughing? If ploughing, how do you compare it to CF?
  - i. Higher yields? Can you quantify how much more?
  - ii. More or less labor? How much more?
  - iii. Cost? How much more

20. Why does your particular method produce different results?

- a. Earlier planting? If so, by how much?
- b. Improved water harvesting?
- c. Better fertilizer placement/use?
- d. Better germination?

21. What challenges or difficulties do you experience with your current method of farming?

- a. Labor demand?
- b. Costs?
- c. Grazing animals?
- d. Environmental related challenges—soil quality, water runoff, erratic rainfall?

Survey questions adapted from an IFPRI/FSRP Farm Survey, 2001-2 of farmers practicing basin technology in Zambia as reported on by Haggblade and Tembo (2003).

## CURRICULUM VITAE

**Name**

Mr. Daniel Philip Blank

**Date of Birth**

13 March 1971

**Education Background**

2010-Present

MSc. Sustainable Agriculture and Integrated Watershed Management, joint degree, University of Hohenheim, University of Chiang Mai (July 2012 projected completion)

1998

B.A. Biology with Environmental Emphasis, Intercultural Relations Minor Houghton College, Houghton, New York

**Career Experience**

2002-Present

Owner-Producer, 12 Seasons Farm, Fort Myers, Florida

1996-2009

Farm Manager and Tropical Fruit Nursery Manager  
Educational Concerns for Hunger Organization (ECHO), Fort Myers, Florida

### **Professional Presentations**

- 2012                   Evaluation of soil fertility in a no-till farming system,  
Conference on Sustainable Land Use and Rural Development in  
Mountain Areas, University of Hohenheim, Germany
- 2009                   The Importance of Life in the Soil/ Extending the Growing  
Season ECHO Asia Agricultural Conference, Chiang Mai,  
Thailand
- 2008                   The Importance of Life in the Soil, La Conferencia  
Agroecológica Regional (CARECA), Suchitoto, El Salvador
- 2007                   Extending the Growing Season, Konferans Agrikol, Haiti
- 2007                   The Importance of Life in the Soil, ECHO Conference, Florida
- 2006                   Agroforestry Options for Small-Scale Farmers, ECHO  
Conference, Florida
- 2005                   Extending the Growing Season, ECHO Conference, Florida
- 2004                   Diversifying with Tropical Fruits, Konferans Agrikol, Haiti
- 2004                   Diversifying with Tropical Fruits, ECHO Conference, Florida

### **Publications**

- Blank, D. 2007. A Fresh Look at Life Below the Surface. EDN No.96, Eds: Price, M.,  
Berkelaar, D.

**Reprinting**

Blank, D. 2008. A Fresh Look at Life Below the Surface. In Goddard, T., Zoebisch, M.A., Gan, Y.T., Ellis, W., Watson, A. and Sombatpanit, S., No-Till Farming Systems, Special Publication No. 3, World Association of Soil and Water Conservation, Bangkok, pp. 73-82.
