

TABLE OF CONTENTS

	PAGE
ACKNOWLEDGEMENTS	iii
ABSTRACT	iv
TABLE OF CONTENTS	xii
LIST OF FIGURES	xv
LIST OF TABLES	xvii
ABBREVIATIONS	xviii
CHAPTER I: INTRODUCTION	
1.1 Statement of problems	1
1.2 Literature reviews	3
Avian immune system	3
Immunoglobulins in chicken	5
Immunoglobulin diversity in chickens	7
Transport of IgY from maternal serum to the offspring	9
Biochemical properties of IgY	11
Advantages of IgY in immunodiagnostic aspects	12
Antibody production in chicken	17
Isolation of IgY from egg yolk	19
Applications of IgY	22
1.3 Objectives	27

CHAPTER II: MATERIALS AND METHODS

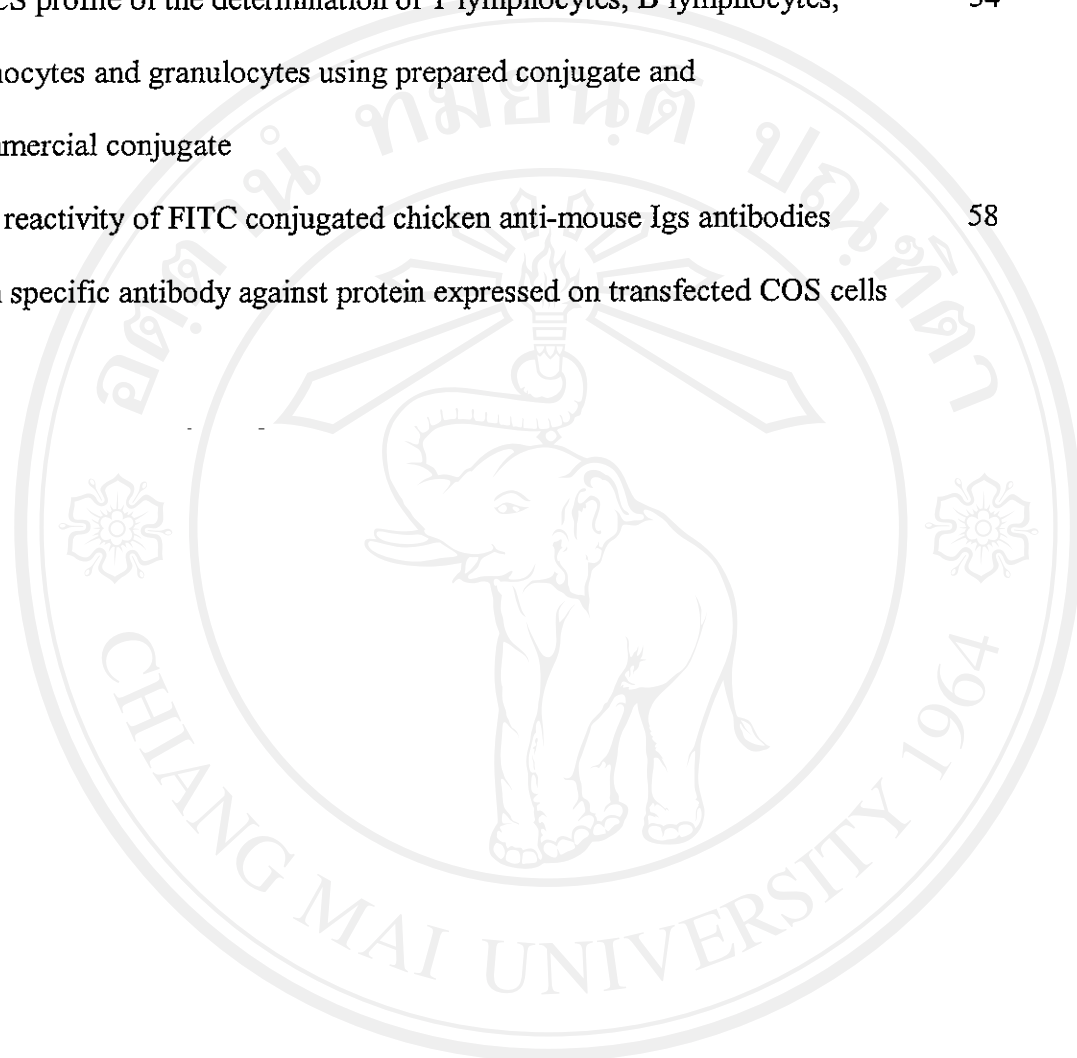

2.1 Purification of immunoglobulins from pooled normal mouse serum	28
2.2 Determination the purity of isolated mouse immunoglobulins with SDS-PAGE	29
2.3 Determination of immunoglobulin isotypes	29
2.4 Immunization	30
2.5 Extraction of IgY from egg yolk by water dilution and salt precipitation method	31
2.6 Determination the purity of chicken IgY by SDS-PAGE	31
2.7 Indirect ELISA for measurement of chicken anti-mouse immunoglobulins antibodies	32
2.7.1 Titration of concentration of mouse immunoglobulins antigen	32
2.7.2 Titration of HRP conjugated rabbit anti-chicken IgG	33
2.8 Fluorescein isothiocyanate (FITC) labeling of chicken anti-mouse immunoglobulins antibodies	33
2.9 Determination the activity of FITC labeled chicken anti-mouse immunoglobulins	34
2.10 Titration of FITC labeled chicken anti-mouse immunoglobulins antibodies for using in indirect immunofluorescence assay.	35
2.11 Determination of leukocyte sub-populations by using FITC conjugated chicken anti-mouse immunoglobulins antibodies	35

2.12 Determination of recombinant protein expression on COS cells using FITC conjugated chicken anti-mouse immunoglobulins antibodies	36
CHAPTER III: RESULTS	
3.1 Preparation of mouse immunoglobulins for immunization	37
3.2 IgY extraction from egg yolk by water dilution and salt precipitation method	38
3.3 Optimization of ELISA conditions for measurement of chicken anti-mouse Igs in serum and IgY extracted from egg yolk	42
3.4 Production of chicken anti-mouse immunoglobulins antibodies	43
3.5 FITC conjugation and determination the activity of FITC conjugated chicken anti-mouse immunoglobulins antibodies	49
3.6 Titration of FITC conjugated chicken anti-mouse immunoglobulins for using in indirect immunofluorescence assay	49
3.7 Determination of peripheral leukocyte populations by using the generated conjugate.	51
3.8 Determination of protein expression in COS cell transfection system using generated conjugate	56
CHAPTER IV: DISCUSSION AND CONCLUSION	59
REFERENCES	67
APPENDIX	86
CIRRICULUM VITAE	97

LIST OF FIGURES

FIGURE	PAGE
1.1 The structural differences between mammalian IgG and chicken IgY	7
3.1 SDS-PAGE analysis of isolated mouse Igs	39
3.2 The absorbance of isolated mouse Ig isotypes determined by sandwich ELISA	40
3.3 SDS-PAGE analysis of IgY extract from egg yolk	41
3.4 Titration of mouse Igs concentration for coating plate in sandwich ELISA	44
3.5 Titration of horseradish peroxidase conjugated rabbit anti-chicken IgG concentration	45
3.6 Anti-mouse Igs response of chicken sera after immunization	47
3.7 Anti-mouse Igs response of chicken IgY extracted from egg yolk after immunization	48
3.8 Comparison of reactivity of FITC conjugated chicken anti-mouse Igs	50
3.9 Immunofluorescence analysis of the reactivity of FITC conjugated chicken anti-mouse Igs antibodies at various concentrations when IgG1 and IgG2b isotypes were used as primary antibodies	52
3.10 Immunofluorescence analysis of the reactivity of FITC conjugated chicken anti-mouse Igs antibodies at various concentrations when IgG2a, IgG3 and IgM isotypes were used as primary antibodies	53

- 3.11 FACS profile of the determination of T lymphocytes, B lymphocytes, 54
monocytes and granulocytes using prepared conjugate and
commercial conjugate
- 3.12 The reactivity of FITC conjugated chicken anti-mouse Igs antibodies 58
with specific antibody against protein expressed on transfected COS cells

ABBREVIATIONS

α	Alpha
β	Beta
$^{\circ}\text{C}$	Degree Celsius
γ	Gamma
μ	Micro
ν	Upsilon
μg	Microgram
μl	Microliter
nm	Nanometer
Ab	Antibody
BSA	Bovine serum albumin
DEAE-Dextran	Diethylaminoethyl-Dextran
DMSO	Dimethyl sulfoxide
ELISA	Enzyme linkage immunosorbent assay
FACS	Fluorescence-activated cell sorter
FITC	Fluorescein isothiocyanate
g	Gram
HRP	Horseradish peroxidase
H_2SO_4	Sulfuric acid

IgG	Immunoglobulin G
IgM	Immunoglobulin M
IgY	Immunoglobulin Y
Igs	Immunoglobulins
kDa	Kilodalton
kg	Kilogram
M	Molarity
MW	Molecular weight
N	Normality
mAb	Monoclonal antibody
mg	Miligram
min	Minute
ml	Milliliter
NaN ₃	Sodium azide
Na ₂ SO ₄	Sodium sulfate
OD	Optical density
OPD	O-phenylenediamine
PBMC	Peripheral blood mononuclear cells
PBS	Phosphate buffer saline
SDS-PAGE	Sodium dodecyl sulfate polyacrylamide gel electrophoresis
Sec	Second
