ACKNOWLEDGEMENTS

As the author, I wish to express my sincere gratitude and appreciation to Prof. Dr. Watchara Kasinrerak, my thesis advisor, for his excellent guidance, continuous suggestions and many encouragements throughout this study. This thesis would not be completed without his support.

I wish to extend my deepest gratitude to Dr. Panida Khunkaewla for her guidance and suggestions.

I would like to express my sincere thanks to all of my colleagues for their kindly help and friendship.

I sincerely thank Division of Clinical Immunology, Faculty of Associated Medical Sciences, Chiang Mai University for their supports in providing instruments and places for the study to be conducted.

I am grateful to the National Center for Genetic Engineering and Biotechnology (BIOTEC) for the scholarship. I also thank The Thailand Research Fund for research financial supporting.

Finally, I would like to express my special gratitude to my parents for their patients, love, understanding and support throughout my study.

Kodchakorn Mahasongkram
