ACKNOWLEDGEMENT

First of all, I cannot graduate and pass a difficult time without plenty of help and friendship from everyone in Physical Therapy Department.

My grateful thanks are dedicated to my thesis advisor, Asst. Prof. Somporn Onlaor for her suggestion, advice, and great help. Without her encouragement, this study will neither be started nor complete.

My sincere appreciation is conferred to Assoc. Prof. Jonjin Ratanapinunchai, Lect. Dr. Aatit Paungmali for their useful commendation and attention. Besides, I would like to thank all staff of this faculty for their kindness.

I would like to thank all of friends who study in the same major to cheer up my spirit. Especially, the student from the same adviser, Ms. Sirinun Borripuntakul for her wonderful assistance. I would like to give big thanks to Ms. Sawitree Sittidet for her helpful advice and Ms. Supanee Srisook, my best thesis assistance. Moreover, I would like to thank all participants who devoted time to participate this study.

Finally, I would like to thank my parents for their love and understanding every thing I do.
