ACKNOWLEDGEMENTS

The author must express my sincere gratitude and appreciation to Asst. Prof. Dr. Sawitree Chiampanichayakul, thesis advisor, for her excellent guidance, continuous suggestions and many encouragements throughout this study.

My grateful thank to Prof. Dr. Watchara Kasinrerak for his effort proving the every significant experiment, generating important ideas and thankful for the generosity providing all laboratory facilities.

I additionally need to express my great appreciation to Dr. Nutjeera Intasai, Asst. Prof. Dr. Yuttana Munde, Asst. Prof. Dr. Dalina Tanyong and all examining committee for their valuable comment and approving this accomplishment.

My grateful thank to lecturer Parsit Chanarat and the members of Division of Clinical Microscopy, Department of Medical Technology, Faculty of Associated Medical Sciences, Chiang Mai University for their kindness suggestions and valuable advice.

I also have to express my great appreciation to all staff of Prof. Dr. Watchara Kasinrerak's laboratories for their kind help, friendship and co-operation.

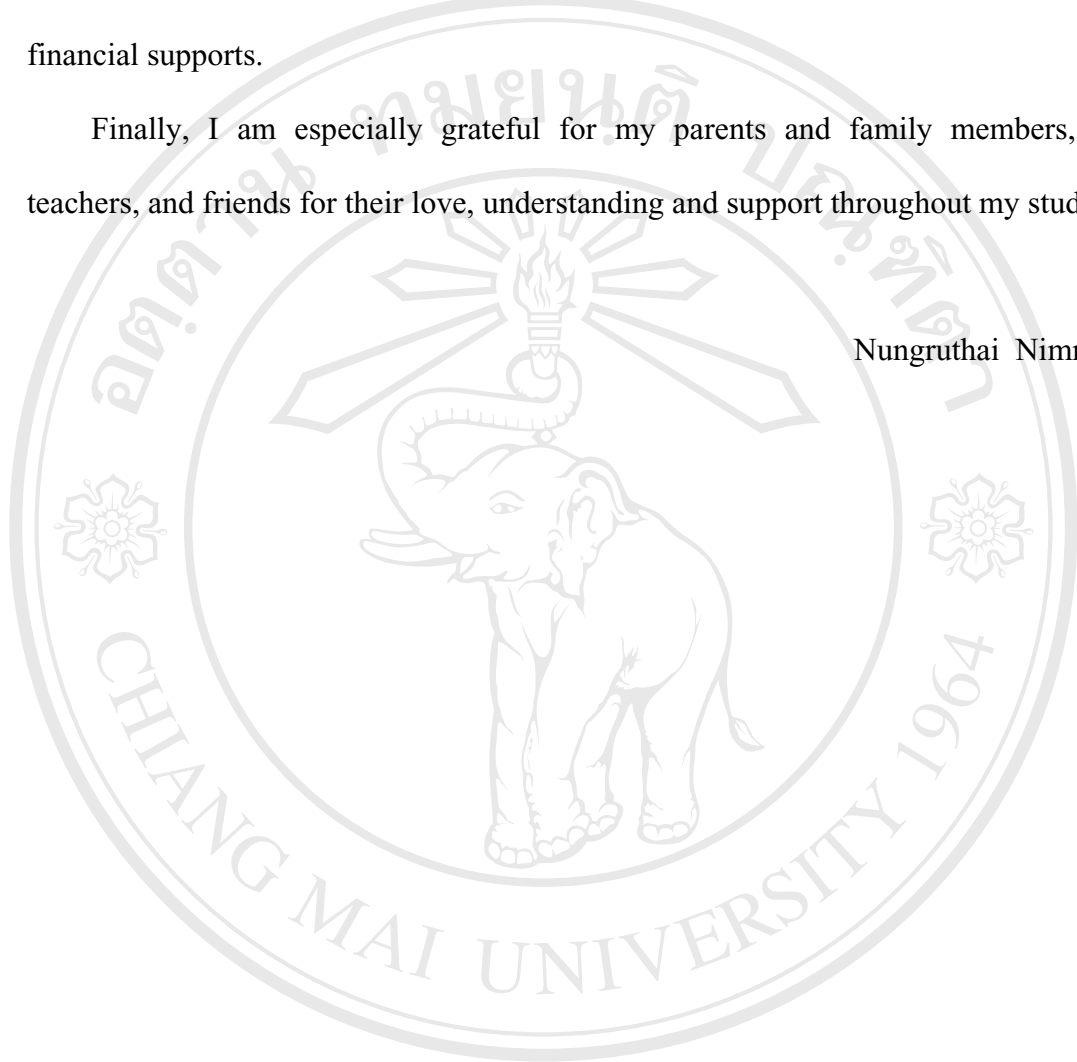

I would like to thank the Department of Medical Technology and Biomedical Technology Research Center, Faculty of Associated Medical Sciences, Chiang Mai University for providing instruments and a place for the study.

I also need to express special acknowledgement to Naresuan University, Phayao, the National Research Council of Thailand, National Center for Genetic Engineering

and Biotechnology (BIOTEC) and Biomedical Technology research center for their financial supports.

Finally, I am especially grateful for my parents and family members, my teachers, and friends for their love, understanding and support throughout my study.

Nungruthai Nimnuch
