ACKNOWLEDGEMENTS

The author wishes to express sincere gratitude and appreciation to Prof. Dr. Watchara Kasinrerak, thesis advisor, for his excellent guidance, continuous discussion, and many encouragements throughout this study. This thesis would not be completed without his support.

I would like to offer my special thanks to Assoc. Prof. Dr. Chakrit Hirunpetcharat, Assoc. Prof. Dr. Chatchai Tayapiwatana, and Asst. Prof. Dr. Sawitree Chiampanichayakul, thesis examining committee, for their kindness suggestions and valuable advice.

I also wish to express my great appreciation to all staff members of Prof. Dr. Watchara Kasinrerak's laboratory for their kind help, friendship, and co-operation.

I sincerely thank Biomedical Technology Research Center and Division of Clinical Immunology, Department of Medical Technology, Faculty of Associated Medical Sciences, Chiang Mai University for their supports in providing instruments and places for the study to be conducted.

I am grateful to Naresuan University Phayao for the scholarship. I also thank The Thailand Research Fund and National Science and Technology development agency for research financial supporting.

Supaporn Khamchun
