ACKNOWLEDGEMENT	iii
ENGLISH ABSTRACT	iv
THAI ABSTRACT	vi
TABLE OF CONTENTS	viii
LIST OF TABLES	xii
LIST OF FIGURES	xiii
ABBREVIATIONS	xiv
CHAPTER 1 INTRODUCTION	1
Research questions and hypotheses	3
Purposes of the study	4
Advantages of the study	4
CHAPTER 2 LITERATURE REVIEWS	
1. Falls in elderly	5
Definition of fall	5
Definition of Elderly Person	5
Incidence of fall in elderly people	6
Consequences of falls	7
2. Factors related to fall	8
Intrinsic factors	9

Extrinsic factors	10
3. Age-related changes on postural control	11
Definition of postural control	11
Requirements for postural control	12
4. Footwear styles and features and their influences on postural control in elderly	14
4.1 Footwear Styles	14
4.2 Footwear Features	16
Shoes Heel	16
Heel-collar high	17
Shoes Sole	18
Midsole Cushioning	18
Midsole Flaring	19
Slip Resistance of Shoe Outsoles	19
5. Measurement of postural control	20
One-Leg Stance test (OLS)	20
Reach Test	21
Modified Clinical Test of Sensory Interaction and balance	21
Gait speed (10-Meter Walk test; TMW)	22
Timed Up & Go test (TUG)	22

CHAPTER 3 METHODS

1. A survey study on footwear styles commonly worn by elderly women	24
---	----

1.1 Participants	24
1.2 Equipment	25
1.3 Procedure	26
2. A comparison study on postural control ability of elderly women while wearing different footwear styles	27
2.1 Participants	27
2.2 Equipment	28
2.3 Independent and dependent variables	29
2.4 Procedure	29
3. Statistical analysis	32
4. Data collection location	32
CHAPTER 4 RESULTS	
1. Part I. A survey study on footwear styles commonly worn by elderly women	33
2. Part II. A comparison study on postural control ability of elderly women while wearing different footwear styles	37
One Leg Stance Test (OLST)	41
Reach test	42
Modified Clinical Test of Sensory Interaction and Balance	43
Gait speed (10-Meter Walk Test; TMW test)	46
Timed Up and Go	47
CHAPTER 5 DISCUSSION	
1. Part I: the Survey Study	48

2. Part II: the Experimental Study	50
3. The impact of features of each footwear style on postural control ability	50
3.1 Thong	50
3.2 Sandal	52
3.3 High-heel shoes	52
3.4 Athletic shoes	54
4. Other factors that may influence postural control ability of participants in the present study	56
5. Conclusions	57
6. Limitations and suggestions	58
REFERENCES	59
APPENDICES	
APPENDIX A Survey form	69
APPENDIX B Personal data collection form	71
APPENDIX C Mini-Mental State Examination	76
APPENDIX D Consent form	81
APPENDIX E Information sheet	83
APPENDIX F Certificate of ethical clearance	87
CURRICULUM VITAE	88

LIST OF TABLES

TABLE	PAGE
1 Fall history in the past 12 months of participants	34
2 Percentage of the footwear styles rated by participants as the most often worn footwear in daily living (N=170)	35
3 Characteristics of the participants (N=30)	37
4 Features of each footwear style for the comparison study (size 38)	38
5 Comparisons between 4 footwear conditions for postural control test (Mean±SD)	40

LIST OF FIGURES

FIGURE		PAGE
1	Diagram of summarized systems contributing to postural control	12
2	Various shoes styles	15
3	Features of footwear reported to affect postural stability	16
4	Bevelled heel shoes	20
5	A chart displaying 10 groups of footwear styles	26
6	Time on OLST for each footwear condition	41
7	Comparison between each footwear condition for function reach test	42
8	Comparison between each footwear condition for lateral reach test	43
9	Comparison between each footwear condition for modified CTSIB scores on firm surface with eye closed	44
10	Comparison between each footwear condition for modified CTSIB scores on foam surface with eye open	45
11	Comparison between each footwear condition for modified CTSIB scores on foam surface with eye closed	45
12	Comparison between each footwear condition for Gait speed	46
13	Comparison between each footwear condition for TUG test	47

ABBREVIATIONS

OLST	One Leg Stance test
mCTSIB	Modified Clinical Test of Sensory Interaction and balance
TMW	10-Meter Walk test
TUG	Timed Up and Go
COM	Center of Mass
BMI	Body Mass Index
CNS	Central Nervous System
LOS	Limit of stability
FRT	Functional Reach Test
cm	Centimeter
COP	Center of Pressure
BESTest	Balance Evaluation System Test
Sec	Second
MMSE	Mini-Mental State Examination
m	Meter
yr	Year
mo	Month
kg	Kilogram
SD	Standard deviation
g	Gram
