ACKNOWLEDGEMENTS

I would like to express my sincerely gratitude and appreciation to my thesis advisor, Dr. Nuanlaor Thawinchai for her valuable guidance, recommendations, and encouragement throughout this thesis process.

I would like to express great thanks to Assoc. Prof. Dr. Jonjin Ratanapinunchai for her valuable suggestions and helpful advice.

I would like to express great thanks to the Faculty of Associated Medical Sciences and the Graduate School, Chiang Mai University for their research grants and Srisangwan Chiang Mai School and Special Education Center, Region 8 Chiang Mai for collected data location.

I would like to especially express much thanks to all of my volunteers for their kindness and willingness throughout my data collection. Special thanks go to Mr. Eakarach Wongsaya for his support in the progress of data collection as well as all my friends for their assistances and warm friendship.

Ultimately, I would like to show special appreciation to my family for their love and warm encouragement, which has enabled me to complete this thesis.
