ACKNOWLEDGEMENT

I owe my deepest gratitude to Dr. Patima Silsupadol who advised and spent a great deal of her time in this study. Without her support and encouragement this study would hardly have been completed. Her kindness is greatly appreciated.

I would like to thank thesis committee, Asst. Prof. Dr. Somporn Sungkarat and Asst. Prof. Dr. Sujitra Boonyong for their direction, dedication, and invaluable advice.

I would like to thank Miss Suleeporn Wongchareon for her precious advice and assistance during collecting the data.

I also thank Mr. Vipul Lugade for his careful revision of the language in the manuscript of this thesis.

I wish to thank all the participants who participated in this study.

Special thanks to the graduate school, Chiang Mai University for a research grant. I also thank Faculty of Nursing, Chiang Mai University and Assoc. Prof. Dr. Duangruedee Lasuka for facilitating in participants invitation process.

I would like to extend my gratitude to all the staffs and friends at the Department of Physical Therapy, Chiang Mai University for all the years that have turned into many good memories. Their love and friendship are greatly appreciated.

Finally, I am heartily thankful to my parents, my sister, and my friends for their love and never failed to encourage me even at those very difficult times.

I offer my regards and blessings to all of those who supported me in any respect.
