## ACKNOWLEDGEMENT

Many people encouraged me throughout this difficult period and I would like to express my gratitude to them.

I am very appreciative of the time and effort given by my advisor Dr. Nopasit Chakpitak who supported and encouraged me throughout the Ph.D. program. He gave me valuable advice and recommendations so I could complete this thesis. I am also thankful to the other members of my advisory committee, Dr. Komsak Meksamoot and Dr. Pakdeekul Ratana. Thank you for listening and giving tips to accomplish the research. I would also like to express my appreciation to Dr. Pradorn Sureephong for his suggestions and comments.

I am very grateful to Associate Prof. Dr. Laurent Veillard. His valuable insights and comments helped me to overcome all difficulties throughout my thesis. A special thanks to Associate Prof. Dr. Michel Le Nir, IUT Lumière Director, who was very helpful during my time in Lyon. I would also like to thank Prof. Dr. Abdelaziz Bouras for his kind support and Mr. Michel Grivel for his time and effort. A particular thanks to my proof-reader Dr. Frank Paul Bozel.

I am thankful for the support of the Institut Universitaire de Technology Lumière (IUT Lumière), University Lumière, Lyon 2, France and the Duale Hochschule Baden-Wurttemberg (DH-BW) Vellingen - Schwenningen, Germany who were valuable partners in the Euro THai Implementation of Cooperative Study - For Economic Development (ETHICS-FED) project. Helpful knowledge and techniques about co-op education were transferred with the help of the great team members of this project.

I would also like to express my utmost thanks to my father, my mother, my brothers, and my beloved wife who always take care and encourage me. Without all of you it would be difficult to finish this thesis.
