ACKNOWLEDGEMENTS	iii
ABSTRACT	iv
LIST OF TABLES	ix
LIST OF ILLUSTRATIONS	x
CHAPTER I INTRODUCTION	1
Principles, theory and rationale	1
The purpose of the study and hypothesis	3
Anticipated benefits	3
Scope of the research	4
Definition	4
CHAPTER II LITERATURE REVIEW	5
Teeth	5
Brackets	6
Adhesive systems	8
Method of testing	20
CHAPTER III MATERIALS AND METHODS	22
Materials	22
Instruments	25
Methods	29
Statistical analysis	38
CHAPTER IV RESULTS	39
CHAPTER V DISCUSSION	42
Limitations	46
Suggestions	47
CHAPTER VI CONCLUSION	48

LIST OF TABLES

Table		Page
1	Means, standard deviations and ranges of shear bond strength of System 1+, Transbond, Sequence and Enlight	39
2	Analysis of variance of mean bond strengths of four kinds of adhesives	40
3	Statistical comparison of mean bond strengths using Duncan's multiple range test	40
4	Means, standard deviations and ranges of the percentage of failure modes	41
5	Comparison of the bond strength values of System 1+, Transbond and Sequence in several studies	43
6	The values of shear bond strengths, percent resins, percent adhesive failures and percent cohesive failures of the samples bonded with System 1+	56
7	The values of shear bond strengths, percent resins, percent adhesive failures and percent cohesive failures of the samples bonded with Transbond	57
8	The values of shear bond strengths, percent resins, percent adhesive failures and percent cohesive failures of the samples bonded with Sequence	58
9	The values of shear bond strengths, percent resins, percent adhesive failures and percent cohesive failures of the samples bonded with Enlight	59

LIST OF ILLUSTRATIONS

Figure	Page
1 Air trapped between adhesive and adherend	8
2 Schematic summary of contribution of physical, mechanical, and chemical bonding to interfacial adhesion	9
3 Surface wetting. I) contact angle 105° , II) contact angle 60° III) contact angle 0°	10
4 Effect of thickness of adhesive layer on bond strength	11
5 System 1+	23
6 Transbond	23
7 Sequence	24
8 Enlight	24
9 Instron® universal testing machine	25
10 Debonding plate	26
11 Mounting jig	26
12 Incubator	27
13 Nikon stereozoom microscope	28
14 One hundred-scale grid	29
15 Phosphoric acid solution	30
16 The wire attached to the tooth-bracket was placed above the ring by the plastic for embedding of the tooth.	32
17 Tooth embedded in polyvinylchloride ring	32
18 The debonding plate was fixed into the upper pneumatic grip and the mounting jig was fixed into the lower pneumatic grip.	33
19 An apparatus assembled for testing shear bond strength	34

Figure	Page
20 Schematic diagram of force direction for shear bond strength testing	35
21 Photographs of debonding failure a) at bracket base b) at enamel surface	36
22 One hundred-scale grid placed onto photographs a) at bracket base b) at enamel surface	37
