ACKNOWLEDGEMENTS

This thesis was succeeded by the assistances of several persons. I am most grateful to my advisor, Lecturer Duangsamorn Charuchinda for her invaluable advices, information searching and thesis manuscript proof. I also thank for all staffs of Orthodontic Department, Faculty of Dentistry, Chiang Mai University for all useful suggestions.

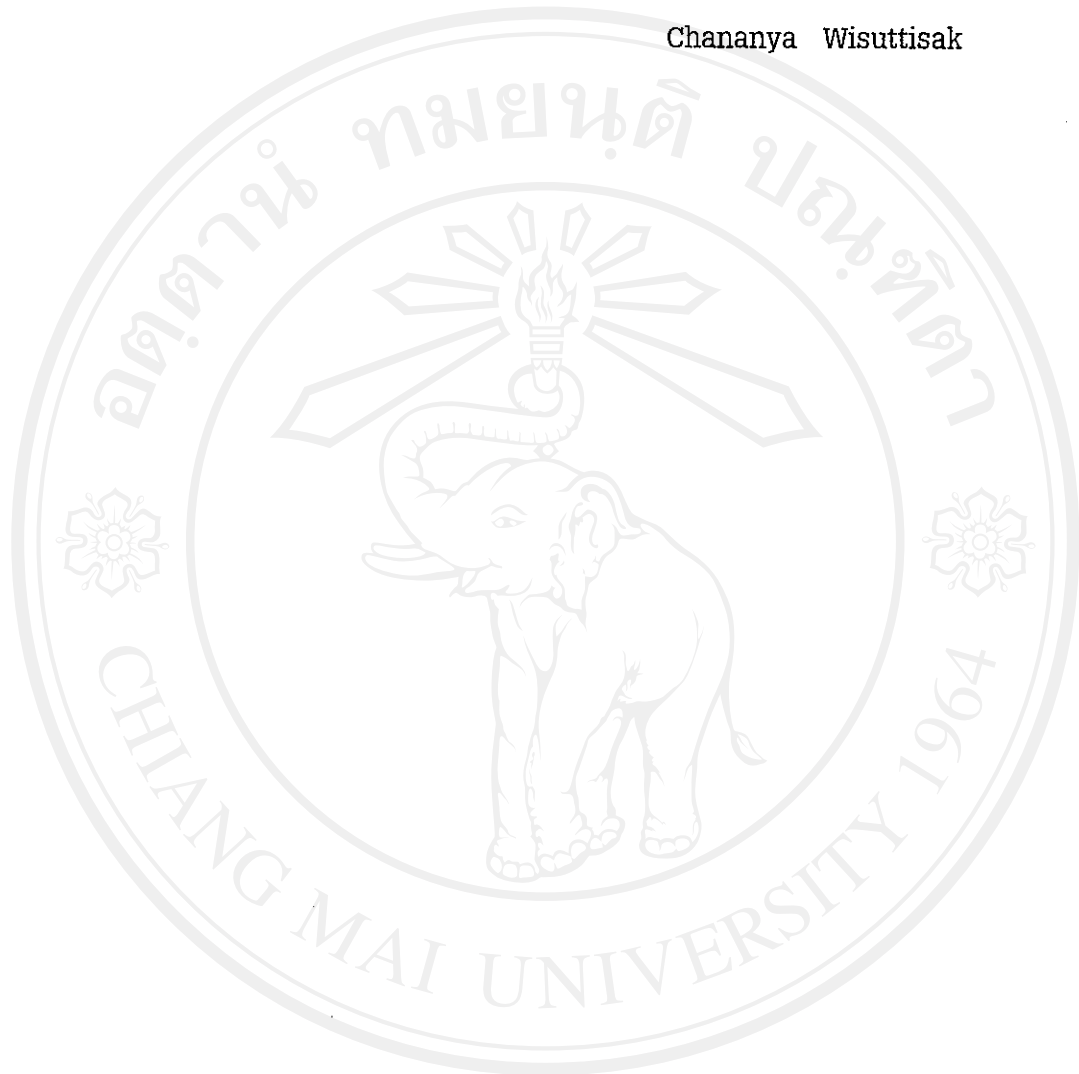

I would like to express my thankfulness to Assistant Professor Aunnop Koonphandh, the Educational Measurement and Evaluation Department, Faculty of Education, Chiang Mai University for the reliable advices in the design and interpretation on the statistic aspects of this investigation, and also to Associate Professor Dr. Tay Chiengchee, the Educational Measurement and Evaluation Department, Faculty of Education, Chiang Mai University for the valuable consultation on the computer statistical programs used. Besides, I would also like to thank Dr. Robert Molloy, Polymer Science, Industrial Chemistry Department, Faculty of Science, Chiang Mai University for his helpful recommendation on the polymer properties.

Furthermore, I am very much appreciated Mr. Manu Pupanitchareankul, Mechanical Engineering Department, Faculty of Engineer, Chiang Mai University for the stable stander invention, and also Lecturer Searmsuk Buochareon, Head of Metal Technology Division, Rajamangala Institute of Technology, Northern Campus, Chiang Mai for his advice for metal jig design. I am also thankful for gratitude of Dr. Piranit Kantaputra, Pedodontic Department, Faculty of Dentistry, Chiang Mai University for the using of his Digital Vernier Caliper. Moreover, I express my thank to the Research Unit of Faculty of Dentistry, Chiang Mai University and Mahidol University in using the incubator and Universal Testing Machine respectively.

Finally, I am indebted to under obligation from my parents for an abundance of their supports and encouragements. With worthy of love and

respect, I dedicate this thesis to my honourable parents, who always love and give helping hands for everything in my life.
