Initial iterations cannot improve function.Status=3
Abnormal exit from iterations. If current results are shown
check convergence values shown below. This may not be a
solution value (especially if initial iterations stopped).
Gradient value: Tolerance= .1000D-05, current value= .1141D+11
Function chg. : Tolerance= .0000D+00, current value= .3272D+01
Parameters chg: Tolerance= .0000D+00, current value= .8119D+11
Smallest abs. parameter change from start value = .3856D-10
Note: At least one parameter did not leave start value.
