ACKNOWLEDGEMENTS

Thanks are due to many people for their help and cooperation during my study. Firstly, I would like to thank my supervisor, Assoc.Prof. Dr. Songsak Sriboonchitta, for his help and advice and providing opportunities to get involved in a range of interesting projects.

Thanks are due to Prof. Dr. Aree Wiboonpongse , Asst.Prof. Dr. Pairat Kanjanakaroon and Assoc.Prof. Aree Cheamuangphan for their contributions especially good advices and their time spent proof reading this thesis as the thesis committees, this thesis could not have been completed without them.

Thanks to all my teachers for their effort to give me knowledge, especially grateful thanks give to my father and mother and also my sister for their helps and supports in every aspect throughout my life, this proud thesis are dedicated to them.

Special thanks to my best friend Miss Aurasiri Arkarawanatorn and the faculty of Economics for data and computing support.

There are many supports and it is found hardly to name individually, for everybody whose names are not listed here, I remind you thankfully.
