ACKNOWLEDGEMENT

I would like to acknowledge the Ministry of Education on providing good opportunity and scholarship for my graduate study. This grant highly supports my dissertation and new knowledge.

I am grateful to the Faculty of Veterinary Medicine for supporting the facilities to dissertate the update knowledge for my thesis and many facilities to support my laboratory techniques.

I would like to express my sincere gratitude to my supervisor, Associated Professor Dr. Suvichai Rojanasthien for his kindly advices and guidance of my thesis.

Also, thanks to Associated Professor Apichart Oranratnachai and Lecturer Jureerat Sumretprasong who give me a nice opportunity and suggestion to solve problems.

I would like to give my thank to Mr. Keerati Thijae and all staff of Chiang Mai Artificial Insemination and Biotechnology Center for their supporting in feeding management of experimental animals.

I also thank all staff in Clinic for Ruminant and the Satellite Clinic, Faculty of Veterinary Medicine, Chiang Mai University for their lovely friendship, many suggestions and helping.

Finally, I am deeply grateful to my family for their support, understanding and encouragement through out my study.

Anucha Sathanawongs
