ACKNOWLEDGEMENT

First I would like to express my deepest sincere and appreciation to my advisory committee. My special thanks to main advisor, Assoc. Prof. Dr. Suvichai Rojanastein from the Department of Ruminant Clinic, Faculty of Veterinary Medicine, Chiang Mai University, for his guidance, encouragement and support in every facet in the study. My co-advisor, Asst. Prof. Dr. Pawin Padungtod, from the Department of Veterinary Public Health, Faculty of Veterinary Medicine, Chiang Mai University, for his comments and suggestions in writing up questionnaire and data analysis, Prof. Dr. Niwat Maneekarn from the Department of Microbiology, Faculty of Medicine, Chiang Mai University for his comments and suggestions in writing up thesis proposal and technical supports.

I also gratefully acknowledge to Assoc. Prof. Dr. Taweesak Songserm, from Faculty of Veterinary Medicine, Kasetsart University, for his kindness, encouragement, and laboratory support.

I would like to express my deep acknowledgement to Commission of Higher Education for providing scholarship, and National Research Council of Thailand for providing research fund.

Many thanks are also given to Dr. Terdsak Yano, from the Department of Food Animal Clinic, Faculty of Veterinary Medicine for his helping hands.

Finally, I would like to give my special thanks to my family and my friends for their loving understanding and warm friendship.

Techit Chotinun
