ACKNOWLEDGEMENT

First I would like to express my deepest sincere and appreciation to my advisory committee. My special thanks to main advisor, Assoc. Prof. Dr. Suvichai Rojanastein from the Department of Food Animal Clinic, Faculty of Veterinary Medicine, Chiang Mai University, for his guidance, encouragement and support in every facet in the study. My co-advisor, Asst. Prof. Dr. Pawin Padungtod, from the Department of Veterinary Public Health, Faculty of Veterinary Medicine, Chiang Mai University, for his comments and suggestions in writing up questionnaire and data analysis, Dr. Sakda Pruenglampoo from the Research Institute for Health Sciences, Chiang Mai University for his comments and suggestions in writing up thesis proposal and technical supports.

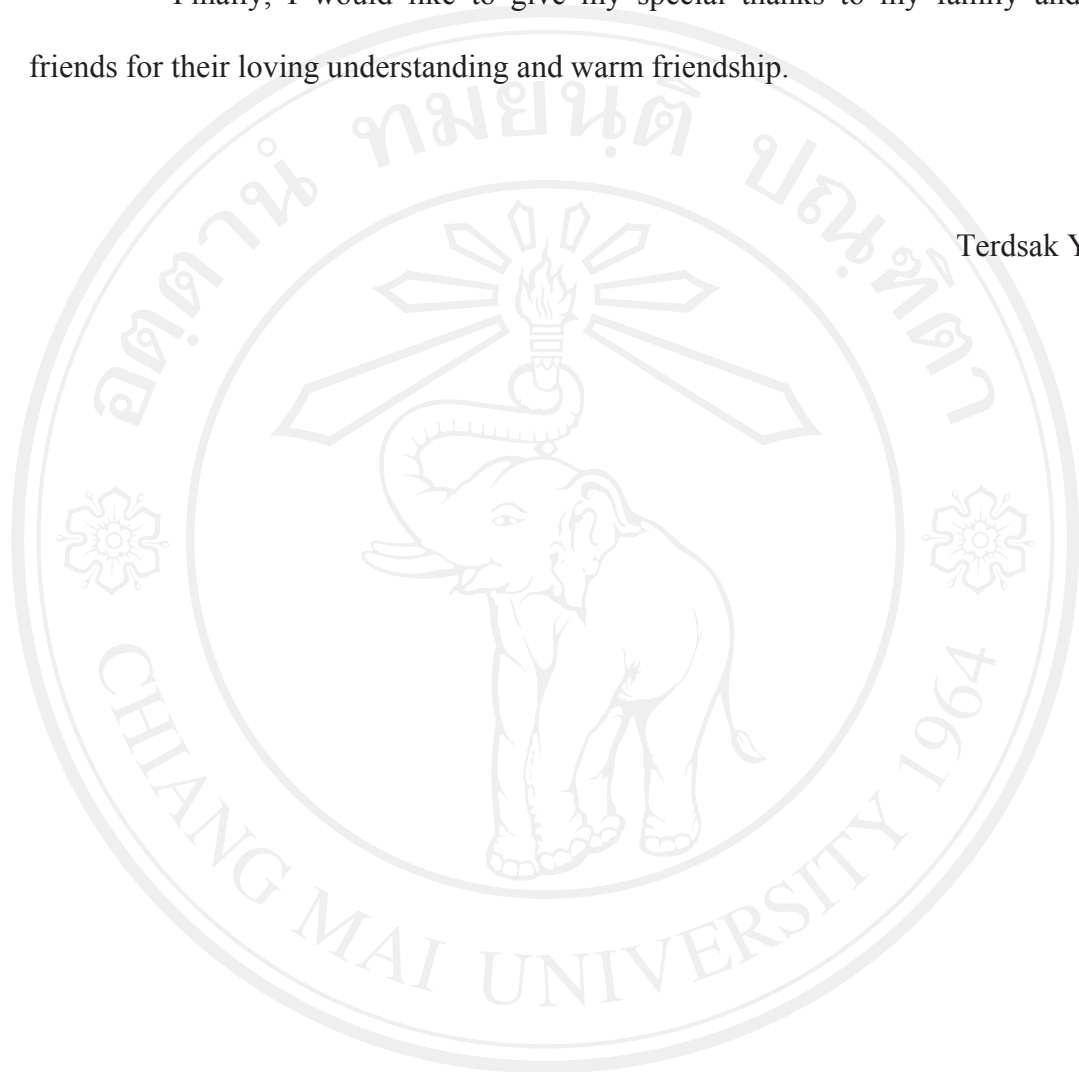

I also gratefully acknowledge to Dr. Kachen Wonsathapornchai, from Bureau of Disease Control and Veterinary Services, Department of Livestock Development, for his kindness, encouragement, and statistical analysis.

I would like to express my deep acknowledgement to Commission of Higher Education for providing scholarship, and National Research Council of Thailand for providing research fund.

Many thanks are also given to Dr. Panuwat Yamsakul and Dr. Sompreeya Kongkeaw, from the Department of Food Animal Clinic, Faculty of Veterinary Medicine, Chiang Mai University for their helping hands.

Finally, I would like to give my special thanks to my family and my friends for their loving understanding and warm friendship.
