ACKNOWLEDGMENTS	iii
ABSTRACT (ENGLISH)	iv
ABSTRACT (THAI)	vi
TABLE OF CONTENTS	ix
LIST OF TABLES	xiv
LIST OF FIGURES	xv
LIST OF ABBREVIATIONS	xix
CHAPTER 1 INTRODUCTION	1
1.1 Principles, Rationale and hypothesis	1
1.2 Research Objective	2
1.3 Research Scope	3
1.4 Education/Application Advantages	3
1.5 Research Location	3
CHAPTER 2 LITERATURE REVIEW	4
2.1 Pineapple	4
2.1.1 Introduction	4
2.1.2 Queen pineapple fruit morphology	5
2.1.3 Chemical composition and nutrient values	7
2.1.4 Pineapple harvesting	8
2.1.5 Postharvest losses	10
2.1.5.1 Weight loss	10
2.1.5.2 Black rot (fruit rot) and fruitlet core rots	10
2.1.5.3 Chilling injury and internal browning	12

TABLE OF CONTENTS (Continued)

	Page
2.1.5.4 Yeast fermentation	15
2.1.6 Postharvest storage	15
2.1.6.1 Temperature and relative humidity management	15
2.1.6.2 Controlled atmosphere and modified atmosphere storage	16
2.1.6.3 Chemical treatment	17
2.2 Coating Material for Fruit	18
2.2.1 Chitosan	18
2.2.2 Methylcellulose	20
2.2.3 Composite film solutions	22
2.3 Antimicrobial Activity of Coating Solutions	23
2.3.1 Mechanism of antimicrobial property of chitosan	23
2.3.2 Antimicrobial agents	24
2.3.3 Carbendazim	25
2.3.3.1 Carbendazim properties, antimicrobial mechanism and application	26
2.3.3.2 Carbendazim dose, tolerances and residue	27
2.4 Application of Antimicrobial Coating Solutions for Fruits	29
 CHAPTER 3 MORPHOLOGICAL CHARACTERISTICS AND THE INFLUENCE OF STORAGE TEMPERATURE ON QUALITY OF QUEEN PINEAPPLE cv. NINHBINH	 32
3.1 Abstract	32
3.2 Introduction	33
3.3 Materials and Methods	34
3.3.1 Raw materials	34
3.3.2 Analysis of morphological characteristics of pineapple fruits	35
3.3.3 Determination of the chilling injury index (CI)	36
3.3.4 Analysis of physical properties of pineapple fruits	36
3.3.5 Analysis of physical, chemical properties of pineapple fruits	36
3.3.6 Microbial analysis	37

TABLE OF CONTENTS (Continued)

	Page
3.3.7 Statistical analysis	37
3.4 Results and Discussion	38
3.4.1 Morphological characteristics of Queen pineapple	38
3.4.2 Effect of storage temperature on chilling injury index	38
3.4.3 Effect of storage temperature on physical and chemical properties	43
3.4.4 Effect of storage temperature on microbial growth on pineapple fruit	50
3.5 Conclusions	54
CHAPTER 4 ANTIMICROBIAL ACTIVITY AND PROPERTIES OF CHITOSAN/METHYLCELLULOSE FILMS INCORPORATED WITH CARBENDAZIM	55
4.1 Abstract	55
4.2 Introduction	56
4.3 Materials and Methods	57
4.3.1 Materials	57
4.3.2 Film preparation	58
4.3.3 Film thickness	58
4.3.4 Opacity and color of films	58
4.3.5 Mechanical properties	58
4.3.6 Water vapor permeability	59
4.3.7 Oxygen permeability	60
4.3.8 Film solubility	60
4.3.9 Sorption isotherms	61
4.3.10 Morphology observation	62
4.3.11 Microbiological analysis	62
4.3.12 Statistical analysis	63
4.4 Results and Discussion	65
4.4.1 Effect of various carbendazim content on film thickness, opacity and color	65

TABLE OF CONTENTS (Continued)

	Page
4.4.2 Effect of various carbendazim concentrations on mechanical properties of C/MC films	67
4.4.3 Effect of carbendazim concentrations on the water vapor permeability and oxygen permeability of C/MC films	69
4.4.4 Effect of carbendazim concentrations on morphology of C/MC films	72
4.4.5 Effect of carbendazim concentrations on film solubility and sorption isotherms	75
4.4.6 Antimicrobial activity of C/MC film incorporated with carbendazim	78
4.5 Conclusions	82
 CHAPTER 5 COATING ‘QUEEN’ PINEAPPLE FRUIT BY ANTIMICROBIAL FILMS AT LOW TEMPERATURE	 83
5.1 Abstract	83
5.2 Introduction	84
5.3 Materials and Methods	85
5.3.1 Film-solutions preparation	84
5.3.2 Raw materials	84
5.3.3 Light microscopic changes on surface and cross-section of pineapple	85
5.3.4 Analysis of physical properties of pineapple fruits	85
5.3.5 Analysis of physical-chemical properties of pineapple fruits	86
5.3.6 Microbial analysis	86
5.3.7 Analysis of carbendazim residue	86
5.3.8 Sensory evaluate	86
5.3.9 Statistical analysis	87
5.4 Results and Discussion	87

TABLE OF CONTENTS (Continued)

	Page
5.4.1 Light microscopic changes on the surface and cross-section of the peel pineapple	87
5.4.2 Physical properties of pineapple fruits	91
5.4.3 Physical-chemical properties of pineapple fruits	94
5.4.4 Microbial growth on pineapple fruit	101
5.4.5 Carbendazim residue in the coated pineapples	102
5.4.6 Sensory evaluate	102
5.5 Conclusions	104
CHAPTER 6 CONCLUSIONS	105
6.1 Overall Conclusions	105
6.2 Future Works	107
