*For imparting their knowledge to me and  
providing me with the skills to succeed*

## ACKNOWLEDGEMENT

First and foremost, I would like to express my sincere gratitude to my principle advisor, Asst. Prof. Dr. Sureeporn Uthaikhup for her valuable advice, continued support and efforts throughout the process. She gave good suggestions and guidance. This thesis would not be successfully completed without the kindness of her.

I would also like to express my thanks to my co-advisor, Asst. Prof. Dr. Patraporn Sitalertpisan for her comments and valuable suggestions.

I would like to special thank for the staff of the Radiological and Physical Therapy clinics at AMS clinical service center, Faculty of Associated Medical Sciences, Chiang Mai University, for providing facilities and materials.

I would like to thank Ms. Chalomjai Pensri for her assistance with data collection and splendid friendship, and all of graduate students for their encouragement.

I would like to thank all participants and Faculty of Associated Medical Sciences, Chiang Mai University for research funding.

Finally, I would like to express my deepest thanks to my parents, Mr. Eakachai and Mrs. Khumkwan Kawsoiy for all their love and support throughout the years. I could not have done this without them.

Kanokon Kawsoiy
